Clinical Prescribing at Addiction Recovery and Clinical Centre (ARCC) Brent
Our service

• Do you want help to stop or reduce your drug/alcohol use?

• Do you drink or take drugs and hide it from your family and friends?

• Are you struggling to quit your drug/alcohol use?

• Are drugs or heavy drinking dominating your life?

• Do you want recovery-focussed treatment?

Clinical Prescribing ARCC is the place that can offer you a bespoke treatment plan to help you address this.
What is the ARCC Clinical Prescribing Service?
ARCC Clinical Prescribing provides specialist interventions and treatment options to people who are dependent on opiates, drugs, alcohol or other psychoactive substances.

It offers substitute prescribing, harm minimisation information, key work and access to community and in-patient detoxification and stabilisation, liaison and referral to the GP Shared Care Scheme, support for families of those with drug and alcohol problems and practical help around housing, education and employment to help people reintegrate back into society.

Who is eligible?

- Anyone aged 18 and over who is a resident of Brent and who wants to stop or reduce their drug or alcohol use.
- Priority is given to pregnant women, people with significant mental or physical health problems and those who have recently left prison or rehabilitation.
- Prescribing treatment can also continue to people being transferred from another prescribing agency.
How to access the ARCC Clinical Prescribing Service?

- Self-referral via telephone call or drop in sessions (see timetable).
- Emailed, fax referrals from other agencies and professionals providing specialist interventions and treatment options involved in your care.
- There are late clinics and Saturday services for those who can’t access treatment during the week.

Drop in sessions

What to expect at your initial assessment?

- A comprehensive assessment of drug, alcohol and related problems will be carried out so we can provide the appropriate advice and treatment for you.
- We will screen you for blood borne viruses e.g. hepatitis B.
- We will offer you your first vaccination for Hep B (there are three vaccinations required).
- Sexual health information/condoms.
- A brief physical health assessment.
