The Addiction Recovery and Clinical Centre (ARCC) Satellite Service
Our service

The CNWL Addiction Recovery and Clinical Centre provides specialist, pioneering services for Brent residents with substance misuse problems and their families who are over 18 years of age.

We offer treatment pathways to help people to overcome drug and alcohol dependency and rebuild lives by providing a range of high quality bespoke treatment and recovery options.

In addition to our main ARCC service at Willesden Centre for Health and Care we also have an ARCC Satellite Service based at The Treatment and Recovery Centre in Cobbold Road.

We can support people with all kinds of drug and alcohol problems including heroin, crack, cocaine and other stimulants such as cannabis and new “club drugs”

We provide blood-borne virus (BBV) interventions and Hepatitis B vaccinations at all drop in sessions as well as the specific BBV Clinic held each Thursday afternoon.
The services we offer:

- Expert assessment of drug, alcohol and related problems
- A Recovery Care Plan devised in conjunction with the service user
- Blood-borne virus testing, Hepatitis B Vaccination and referral for treatment
- Inpatient, outpatient and home based drug and alcohol detoxification
- Support for families of those with drug and alcohol problems
- Women only sessions
- Pre-prescribing clinic for those about to undergo substitute prescribing treatment
- Recovery-focused keyworking (Group and 1-2-1)
- Brief interventions to reduce harm
- Access to a range of one-to-one and group “talking therapies”
- Practical help around housing, education and employment to help people reintegrate back into society

Recovery Day Programme

CNWL also run the Brent Recovery Day Programme service, currently located at ARCC. This is a programme for individuals who have completed their treatment with one of our partner services (WDP, CRI, Addaction, B3, ARCC Clinical Prescribing) and are now ready for the final stages of their recovery and lifestyle change.

For more information please call 020 8438 1777 or email dayprogrammeinfo.cnwl@nhs.net.

If you are reaching the end of your treatment with CRI, WDP, Addaction or the ARCC Clinical Prescribing and would be interested in attending the Brent Recovery Day Programme, please discuss this with your current key worker. Your key worker can then complete our referral form and we can book you in for an assessment or call the number above if you wish to self-refer.
