Drop-in hearing screening clinics

Adult Hearing Service Milton Keynes

Wellbeing for life

If you are aged 16+ and are currently registered with a Milton Keynes GP and have concerns regarding your hearing then why not join us at one of our locations where a member of staff:

- will check your ears for wax / abnormalities
- may perform a quick screening to establish whether you would benefit from hearing aids
- will advise you on the next step.

If you are an existing client of the Adult Hearing Service and have concerns, you will need to telephone the team using the contact number on your paperwork.
